The **People** behind Dwaar

Dwaar Alumatech started its business operations in 2014 as an aluminum window & door manufacturer. The firm was founded by **Mr. Shrenik Talsania** at a very young age, and he developed it through his hard work and passion.

In 2016, **Mr. Harsh Talsania** joined the company and started handling workshops & sites. He personally oversees every site to ensure that the quality is not compromised in any way.

The **Story** behind Dwaar

We Are leader in the engineering, distribution and design of aluminium Windows, Doors and Partitions. Dwaar has become a major player in the aluminum window systems sector, and currently runs operations in all over India. We retain the **“Home-Grown”** local touch and proudly remain a family-owned and family-run business. We are driven by the spirit of entrepreneurship, with solid roots. Moreover, we follow moral business policies and crystal pure transparency in all our transactions to keep healthy relations with More than **25000+ Happy customers.**

Our goal is to achieve sustainable growth through on going **Product Innovation, Technical Expertise, & Expansion** into new markets.

Our philosophy is to **Maintain A Professional, Yet Personal, Approach** with both our clients and our suppliers

We're a family-run business that treats employees like family, resulting in a low turnover company. With a skilled workforce boasting 8-9 years of experience, our core competency is delivering quality work. Our mission is to expand while maintaining high standards.

Completion of work isn't the end; post-sales service is vital. Our belief is that exceptional service fuels business growth. We aspire to expand internationally without compromising quality.

Mission & Vision

We conduct thorough market research to craft customized aluminum window systems that not only meet but surpass, the specific requirements and regulations of each market.

This focussed, customized approach ensures a stronger and more successful relationship with our clients. Our expert services and tailor-made approach enables us to optimally support the needs of each individual market. Our aluminium construction systems are suitable for both renovations and the construction of new buildings across all sectors, from commercial and industrial buildings, to residential and public access constructions.

SLIDING WINDOW

Sliding windows glide open horizontally from one side, providing easy access to fresh air. Sliding windows are popular in contemporary style homes as well as in basements, tight spaces or rooms that need extra ventilation.

Available Sliding Window Height 2 Feet to 20 Feet

Our Hardware Quality Control And Management System As Achieved ISC 9001 Citification

And Most Impotently long-term Costumer Satisfaction

MINIMAL / SLIM LINE

By limiting the amount of visible frame, we have created less interrupted light, beautiful expansive rooms, uninterrupted views, and maximize the feeling of interior and exterior spaces as the feeling of one!

16 mm & 19 mm slim line profile that can hold an **8 mm to 24 mm dgu** glass surface. Corner panels that open and may be concealed into a pocket. The lock may be personalized, with a multi-point Lock system.

REGULAR SERIES

This is a non-insulated sliding system for large dimensions windows. It benefits from the most innovative aesthetics and technical concepts making it a unique solution in its segment: slim outside strong inside. It is high on aesthetics, smart in design and excellent on all performance parameters of a Regular Series

25 mm, 29 mm, 32 mm & 35 mm slim

SLEEK SERIES

The system is a slim, yet solid and durable high quality sliding window system, which guarantees strength and durability in use.

The gives comprehensive performance along with reinforced security and wider vision with great overall aesthetics.

20 mm, 27 mm, 28 mm & 32 mm slim

CASEMENT SERIES

Casement windows are hinged at the sides and swing outward and inward. Easily opening and closing with a crank that folds away when not in use, casement windows are a great option for hard-to-reach spaces.

40 mm & 50 mm window
40 mm & 50 mm door

SUPER SLEEK SEIRES

provides high security, improved energy efficiency, and wide panoramic views with natural daylight. A laminated double-glazing unit, brings high acoustic insulation levels, combined with a variety of configurations, which will meet any architectural need. Based on the weight of the shutter, one or more opening panels with large dimensions can be achieved

15 mm & 19 mm slim

BI-FOLD DOOR

An intelligent combination of form and function, our highly versatile and market-leading Bi-fold sliding door system gives you maximum control over the style and operation of the doors.

Multiple panels can be added to accommodate the design specifications of your building, with the option to open in or out as required. The system also boasts a unique flush line that allows for square flush stacking panels when doors are fully open

ALUMINIUM MOVABLE LOUVERS

Louvers are designed to provide outstanding protection against external agents, such as noise, pollution, and weather Proof .

Our low maintenance screen solutions can be integrated into doors and Casement windows, offering a secure, high performance choice that can enhance the look and feel of any Home building.

PLATED MOSQUITO MESH

An insect screen is the most effective solution for fighting insects without insecticide. It allows you to open your windows at any time to ventilate your room. It is possible to apply a sliding insect screen or inward opening insect screen to suit your type of window. Installation is easy and suitable for fixing to any material, i.e. wood, aluminum or UPVC. Our full colour range of laminates is available.

VERTICAL WINDOW

Vertical Window Perfectly sun-lit and well-ventilated rooms are a guarantee when you install our aluminium vertical sliding windows. One Fix And One Openable can be easily slid up and down, making ease-of-operation an effortless endeavour with our Vertical windows.
